

5-16-01

Dear Sir:

8499 '01 JUN 15 P1:43
I am worried about food. Please urge the Department of Health and Human Services to place a moratorium on the FDA's approval of irradiated foods. Also I am requesting that the Department appoint an independent panel of experts who have no relationship with the FDA's food irradiation approval process or the food irradiation industry, to re-examine the full body of research into the safety of eating irradiated food, and support new research into the toxicity of unique radiolytic products prior the approval of new foods. Thank you.

Sincerely,

Sr. Madeline C

Sister Madeline Clifton
